Case#: 30344221	Submitted on: 01/05/23 10:04AM
	Request Sent on: 01/05/23 03:36PM
	Received: 01/10/23

Client: Jane Smith

Social Security #: XXX-XX-0002

Date of Birth: 12/12/58

Ordered By: - Life Ins of the Southwest, Resonant

Deliver To: - Life Ins of the Southwest, Resonant

Insurance Company: Life Insurance of the Southwes

Underwriter: - Life Ins of the Southwest, Resonant

Agency: Life Insurance of the Southwes, Underwriting

Agency Code: 5TW

Agent:

Policy Amount: \$100,000 Policy#: LS0000001

Policy Type: Life Insurance

Service: APS - Regular from Chan, Bill

Special Request: Please provide information for the last 5 years.

Demographics for Jane Smith

Medical Record Number:

Name: Jane Smith

External ID: V140001

Also Known As:

Social Security Number:

Medical Record Number:

Practice Provider: Referring

Provider: None Date of

Birth: 12/12/1958

Age: 63 Years

Gender: Female

Gender Identity:

Sexual Orientation:

Preferred Contact Method:

Primary Address:

2628 Earle Ave.
HOUSTON TX 05566

Secondary Address:

Phone Numbers:

1.

2.

4.

Email Addresses:

1.

2.

Marital Status: Married

Preferred Language: Cantonese, English

Translator Required: No

Driver's License Number:

Release Signed Date:

Original Chart Scanned:

Patient Status:

Race: Asian

Ethnicity: Not Hispanic or Latino

Dominant Hand:

Notes:

A complete imaging center

SAN GABRIEL, CA 91776

Name: Jane Smith
DOB: 12/12/1958
Exam Date:06/19/2017

MRN #: 701008

Procedure: DIGITAL DIAGNOSTIC BIL MAMMO, IMPLANTS

Indication: Screening. Breast implants.

Comparison: None.

Findings:

Craniocaudad and mediolateral oblique digital images demonstrate saline implants. There are diffuse bilateral innumerable small rounded opacities, many of which are calcified and consistent with prior injected silicone and silicone granulomas. These obscure the breast parenchyma and render the examination virtually nondiagnostic. Displacement views reveal an extremely hard left breast implant, suggesting encapsulation.

Impression:

- ✓ 1/ Saline breast implants, as above.
2. Status post silicone breast injections which ran to the study nondiagnostic. Recommend clinical correlation and possible biopsy of any suspicious palpable mass.

BIRADS category nondiagnostic.

GYNECOLOGICAL CYTOPATHOLOGY REPORT

THINPREP IMAG SYST w/Rfx

CLINICAL HISTORY/ADDITIONAL INFORMATION:

Source: Vaginal, Cervix

LMP: 2015

Routine check-up

GENERAL CATEGORY:

Negative for intraepithelial lesion or malignancy.

SPECIMEN ADEQUACY:

Specimen is satisfactory for evaluation.

No endocervical cells present in a postmenopausal woman with a uterine cervix.

COMMENTS:

Atrophic cell pattern.

This Pap test has been evaluated with computer assisted technology (Hologic ThinPrep IMAGING SYSTEM). The Gynecologic Cytology Test is a screening procedure, subject to both rare false positive and up to a 6% false negative result. The test is most reliable when satisfactory samples obtained on a regular, repetitive basis results must be interpreted in the context of historical and current clinical information.

Screened By: Raymond A Huang, CT(ASCP)

Name:Jane Smith

DOB: 12/12/1958

Gender: Female

Status: Complete.

CC / HPI:

63 y/o female here for annual physical exam.

She presented for Annual Wellness Visit.

Review of history:

I reviewed the documented problem/diagnosis history.

ROS:

Constitutional: The patient denied night sweats, recent illness, fatigue, fever, insomnia and weight loss.

Eyes: The patient denied eye pain, photophobia and vision change.

Ears/Nose/Throat/Neck: The patient denied visual disturbance, hearing loss, nasal discharge, sinus congestion and sore throat.

Cardiovascular: The patient denied arrhythmia, chest pain/pressure, edema, exercise intolerance, orthopnea and palpitations.

Respiratory: The patient denied asthma, pleuritic pain, productive sputum, cough, dyspnea and wheezing.

Gastrointestinal: The patient denied hemorrhoids, hepatitis, abdominal pain, constipation, diarrhea, gastroesophageal reflux, melena, nausea and vomiting.

Genitourinary/Nephrology: The patient denied dysuria, nocturia and urinary incontinence.

Musculoskeletal: The patient denied stiffness, swelling, muscle weakness and myalgias.

Dermatologic: The patient denied rash and scar.

Neurologic: The patient denied dizziness, headache, neck pain and syncope.

Psychiatric: The patient denied anxiety and depression.

Endocrine: The patient denied goiter, hyperglycemia and hypoglycemia.

Hematologic/Lymphatic: The patient denied abnormal ecchymoses, petechiae, abnormal bleeding and bruising, anemia and lymph node enlargement/mass.

Allergy/Immunology: The patient denied food allergy.

Vital Signs:
